At GIFTA our avg. post rate in 2024 is...

92%

## Why gifting works...

### 1. SOCIAL PROOF

Consumers turn to UGC as social proof, **TikTok** is now **No.1 search engine** for GenZ.

### 2. BANK OF ASSETS

Creator assets are **2x more effective at driving sales** than branded content.

### 3. AUDIENCE CONNECTION

**UGC is x2.4 more authentic** and relatable to your audiences than branded content.

**But how do we get 92%  
average post rate?**

GIFTA

## Giftng at scale

SELECTION AND  
AUTHENTICITY

GIFT first, pay second.  
Treat influencers like  
consumers first.

GIFTA

## Gifting at scale

Unboxing needs to be **special** as we have one chance to win creators

PERSONALISATION &  
FULLFILLMENT AT SCALE

Gifting to thousands of creators requires a **strategy** but gives a huge variety of **creative**

GIFTA

## Gifting at scale

Understand the ROI at every level.

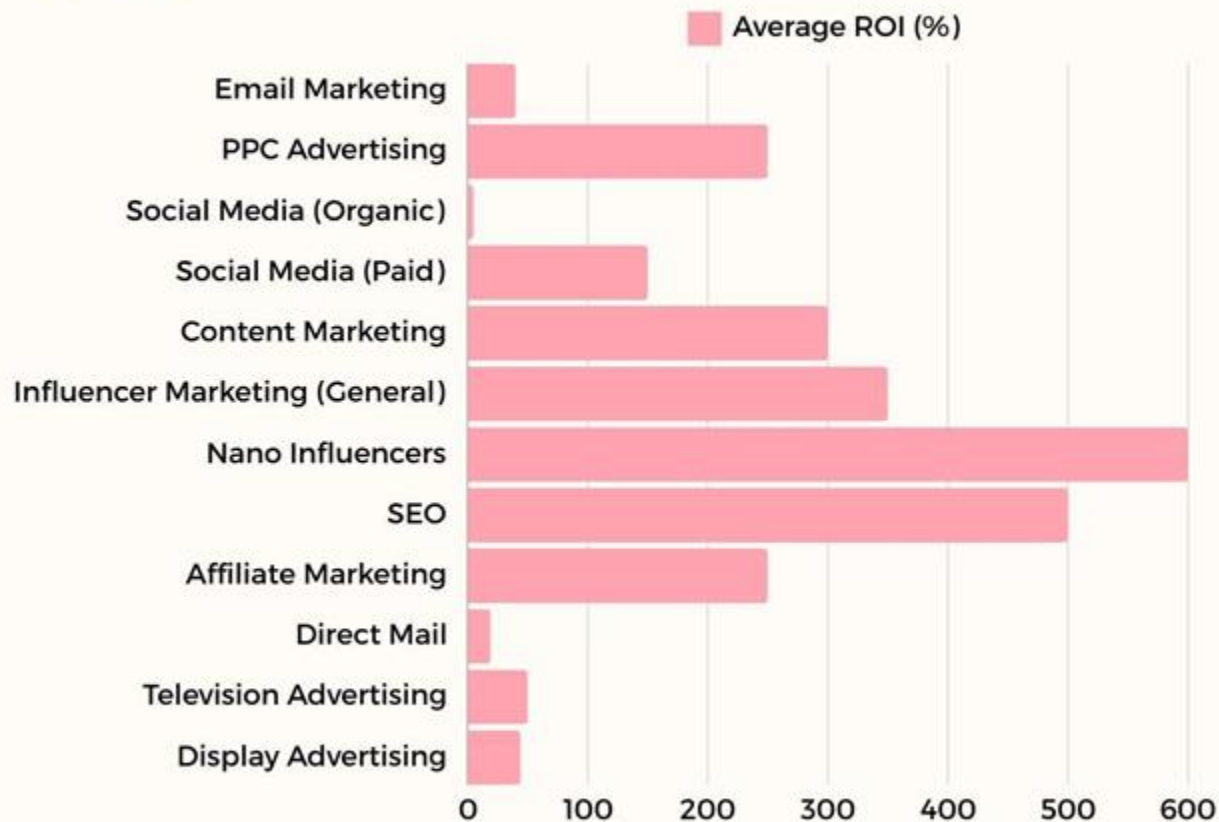

Leverage the ideas and feedback of creators for your brand development.

TRACKING & FEEDBACK

## A year could look a little like this..

*\*ROI figures are derived from industry benchmarks and research by sources like HubSpot, Statista, and the Content Marketing Institute, covering key metrics such as revenue generated, customer acquisition cost, and engagement rates to provide a comprehensive view of marketing channel performance.*

GIFTA

**The future isn't the size  
of the account but the  
degree of separation  
from audience**

When Dove asked us to book accounts with less than 5k followers we saw better performance with these smaller creators.

Avg. Engagement Rate  
= 1.7%

Avg. Engagement Rate  
= 8%

## Tips for gifting as a brand:

- Try gifting at scale to find your top performing audiences before running paid partnerships.
- Personalise the experience for creators to get the best output.
- Ensure you're tracking everything.
- Your next idea is usually found in the comments.

**Thank you!**
